

The School Year is fast approaching its' end

There are only 30 school days left and as always there are lots of events, testing and other school related housekeeping duties to be finished. This means these last 30 days will be jammed packed.

There seems to be something happening every week. This week and next we have re-enrollment for all current students who want to return. This is extremely **important** for certain grades that are full and have a waiting list. We cannot hold a space for you child if we do not have the form by May 5th.

Next week is Charter School's week. We will be celebrating with our Fundraiser for the Arts. We are still looking for donations. We have not reached our goal of 100% participation from parents. We will be calling you over the next weeks for food and item donations.

The week of May 8th we will be administering STAR Test. We need to have your child here on time, well rested and ready for testing. It is extremely important for all students to attend school these days unless they are ill. Please don't make any appointments, scheduling days off, etc., during this week.

May 16th & 17th is Physical Fitness Test for 7th and 9th Grades. This will include running a mile and some flexibility and strength testing. Please make sure you child is here those days and dressed for physical activity.

The following week is the California State Science Fair in Los Angeles. We are sure to have a few students going on to State. By the way, the county science fair is this Saturday in Ukiah.

Then we come to the end of May and the first week in June. There are some field trips for the 8th and 6th grades. Graduation for the 8th and 12th grades, a camping trip, our rummage sale and all the last minute excitement of the end of school. Stay tuned for that!

Last Day of School is June 9th!
